Strikers, Mineworkers Clash

"THEY WOULDN'T LET US near the bus..." said the three Van Brabant brothers of St. Albert district, when relating their story of the clash with striking miners at the Star-Key mine Tuesday morning. The three, left to right, Albert, Andrew and Maurice, all received minor injuries in scuffle. Lower picture shows Jack Starkey, mine owner, examining one of the two telephone poles allegedly pulled down by the pickets. The road at the right had been blocked with snow by the pickets. It was cleared by a mine bulldozer to allow traffic to reach the mine.

Police Give Back Papers Taken in Welfare Probe

Majority of documents seized in two spectacular raids by RCMP officers at the home of Mrs. P. P. Griffith, 10744 127 street, and at the IODE provincial office Tegler building, were returned by police officers Tuesday.

All the documents seized at Mrs. Griffith's home were returned to her by RCMP officers Tuesday morning and the majority of the documents seized at the IODE office were restored at 2 p.m. Tuesday.

It is understood that only five of the large number of documents seized at the IODE office were retained by Crown counsel under the seizure warrant.

Mrs. Griffith stated she received a telephone call Tuesday morning from the RCMP asking if she would be home as they wished to return documents they had seized under search warrant.

Late in the morning, Constable W. P. Peterson of the RCMP and Sgt. Silver, a member of the police squad who made the raid on the Griffith home, returned the documents, Mrs. Griffith stated.

She said there was no evidence on the documents that would indicate photostatic copies of them had been taken by the police. The only markings are those placed on the backs of the documents when they were taken at the time of the raid.

Workers Beaten, Roads Blocked

Violence flared in the Edmonton district coal strike at 7:30 Tuesday morning when pickets allegedly attacked three workers of the Star-Key mine, blocked roads with snow and tore down communication lines near the mine. The mine is about seven miles north of the city limits on 127 street.

Several persons are believed to have been taken into custody by RCMP, who were called to the scene, but A. T. Belcher, assistant commissioner, RCMP in Edmonton, would not confirm this report.

First flareup came when three miners, all brothers of the St. Albert district, were reported stopped while attempting to board the mine bus four miles north of the city limits on 127 street. The three brothers, Andrew, Albert and Maurice Van Brabant, had walked several miles from their home to meet the bus.

When they attempted to enter the vehicle the three men were allegedly rushed by the pickets. A brief fist fight followed and the Van Brabant brothers then took refuge in a nearby farm house. A call was put through to RCMP headquarters, but when police officers arrived the pickets had left the scene.

Two telephone poles were pulled down and the road blocked with huge snow piles on a narrow highway approaching the mine. It took bulldozers from the mine to clear the road for traffic and allow the bus to go through. Snow had been shoveled off the side of a cutbank onto the road.

About 12 pickets were gathered at the crossroad where the Van Brabant boys board the bus each morning and about the same number appeared where the road had been blocked.

None of the three injured in the fracas were hurt seriously, but all received cuts and bruises. One of the injured, Maurice Van Brabant, received a two-inch laceration on his face.

All were able to work on reaching the mine.

"The boys were expected any day," said Maurice.

Saw Pickets Attack

"I witnessed several of the pickets hitting people," Jack Starkey, owner of the mine, said.

There were only about six miners on the bus at the time of the alleged attack and the door was not opened during the fracas. "They wouldn't let our boys near the bus," Mr. Starkey stated.

"They even tried to upset the bus," he added.

Following is a brief statement issued by Mr. Starkey:

"I have made application for an injunction restraining picketing of our men at Star-Key and Penn."

T. A. McElroy, district representative of United Mine Workers of America, district 18, said he had no statement on today's demonstration. When asked the names of union members taken into custody by RCMP, Mr. McElroy said, "I don't know if any have been arrested. We are investigating now, but we will have nothing definite in several hours."

Workers of America. These men decided to stay on the job when the strike was called and have been passing through the picket lines. Normally the mine employers of the district are not involved.

Meanwhile, the miners of the Borgar Hard Coal Co. in the coal branch today signed a contract with the company for the 32 per cent increase asked by the UMW. The contract covers other provisions granted domestic coal operators in Alberta.

Western Europe Union Talks Open Thursday

By Alex H. Singleton

LONDON, March 2.—(AP)—Spurred by the Finland and Czechoslovakia developments, Britain, France and the Low Countries will open conversations in Brussels Thursday on the formation of a Western European Union.

Prime Minister Attlee, in a surprise announcement to the House of Commons today, said it would be a matter of weeks before anything was decided on the new European Foreign Secretary. He said the proposal of a new European Union was a "very serious" one.

There is this dangerous and chaotic state of affairs in Europe and there is fear in European countries of a new feeling of urgency in London.

SEEK RECOVERY, UNIT

Heavily marked by a desire both for speeding economic recovery and for the restoration of political unity in Western Europe, especially in the light of the communist victory in Czechoslovakia and the pressure on Finland.

Revin's proposal called for a close economic, political and military alliance between Britain, France and the Benelux countries—Belgium, The Netherlands and Luxembourg—to form the nucleus for a larger, later grouping of Western European countries.

He said the new feeling of urgency in London was a "very serious" one.

HAS EVIDENCE TO WARRANT EXPULSIONS

LANSING, Mich., March 2.—(AP)—Evidence of hooliganism gambling turned over by Michigan authorities today "warrants expulsions without a doubt," Clarence Campbell, president of the National Hockey League, said today.

LANSING, Mich., March 2.—(AP)—Harry S. Troy, Detroit police commissioner, today turned over to Clarence Campbell, president of the National Hockey League, confidential material which he said "relates to gambling in hockey."

Attending a conference of police officials with Governor Kim Sigler, Campbell promised Sigler he would use the information for a full-scale investigation of reported connections between professional hockey players and gamblers.

"What will you do if you find a hockey player has taken money from gamblers to change the result of a game?" Sigler asked.

Campbell snapped back: "We would be out for life. We would be out for the people of that kind in hockey."

3 Curling Rinks Remain Unbeaten

CALGARY, March 2.—(CP)—Three rinks—Manitoba, British Columbia and Northern Ontario—today maintained their unbeaten records as the third round of the Calgary curling championships was completed. A fourth—New Brunswick—was still in first defeat.

Back to New Brunswick with one victory against two defeats are Ontario, Nova Scotia, Saskatchewan and Quebec. While Prince Edward Island and Alberta have lost three straight.

The lack of the draw does not place any of the three unbeaten rinks against each other play the afternoon British Columbia is drawn against Saskatchewan; Manitoba meets Quebec; Northern Ontario plays Ontario; New Brunswick meets Alberta.

Manitoba leads with 1-0, Saskatchewan 1-1, British Columbia 1-1, Nova Scotia 1-1, Quebec 1-1, Prince Edward Island 1-1, Alberta 1-1, New Brunswick 1-1.

Continued Cold Remains Outlook For Edmonton Area

No let up in the near zero temperatures which have prevailed in the Edmonton region for several days is seen within the next day or two.

Temperature dropped to nine below at 7:30 a.m. today and is expected to climb to five above during the afternoon.

In the Calgary area, an anti-cyclone to the curling snow storm today is expected to bring a milder weather, but temperatures are slightly above zero, but strong winds reaching as high as 40 mph are sweeping across the district.

The storm is expected to bring a little snow, which is causing some drifting.

HAD 25 OPERATIONS, JANE FROMAN TO WED

NEW YORK, March 2.—(AP)—Radio and night club singer Jane Froman, who was severely injured in the Lisbon Clipper crash that took more than 20 lives five years ago, will marry the co-pilot of that plane.

Her personal representative, George Evans, said Monday that Miss Froman, 30, who divorced Donald Ross in Florida last week, will marry John Winters, 35, at the bridegroom's Coral Gables, Fla., home March 12.

Doctors said after her 25th operation recently was successful, she would be able to discard her crutches within six months.

Confessed Slayer Of City Policeman Won't Stand Trial

Alberta Authorities Convinced Story of Murder Was "Faked"

W. A. Bowles, now serving a 15-year sentence in Walla Walla, Wash., penitentiary, who is alleged to have confessed to the slaying of Const. W. L. Nixon, an Edmonton policeman 29 years ago, will not be brought back to Alberta for trial on the murder charge, it was learned from officials of the attorney-general's department Monday.

Bowles' confession was made to Sheriff Robert E. Brady, in Washington state last August after he had admitted to American officers for the theft of a car in Washington, D.C. At that time he said he feared gangland vengeance and was seeking the protection which would be afforded him by a jail term.

King Unaware War Threat

OTTAWA, March 2.—(CP)—Prime Minister Mackenzie King denied in the Commons today that either he or the government knew before the sailing of the Hong Kong expedition in 1941, that war was imminent in the Pacific.

"The fact is," he said, "that both before and after the expedition sailed, and indeed, until the very eve of the Japanese attack, such information as I received from the British authorities was to the effect that an early attack upon Hong Kong was not anticipated."

Rising on a question of privilege at the house opening, Mr. King said that the Hon. J. L. Macdonald, Citizen published yesterday what was published in a letter sent by Premier Drew of Ontario to Mr. King in 1942, criticizing the Hong Kong inquiry of that year.

Although pressed by the opposition to do so, Mr. King never has made this letter public.

Crippling Blizzard Hits South Alberta

CALGARY, March 2.—(CP)—Southern Alberta was caught in the grip of another crippling blizzard today—the second in less than a week—as a 40-mile-an-hour wind piled high drifts across highways, blocking bus travel and causing some disruption to rail schedules.

Blizzard had just been broken up from deep drifts after last Friday's blizzard, when blizzard came overnight and rotary snow plows were held in Calgary because it was impossible to work while the snow was still drifting.

The storm extends from Calgary south to Lethbridge and weather officials issued a warning that conditions would be hazardous for some time during the afternoon with light snow during the evening.

TRAPPER FINDS WEST STILL WILD

PRINCE ALBERT, Sask., March 2.—(CP)—The west is still a hunting ground for trappers, says Joseph J. Fournier, a trapper who has been in the business for 30 years. He said he has trapped 120 miles east of Prince Albert. Officials of the provincial department of natural resources said it was the first such catch record in the Prince Albert area.

6th Train Wreck Victim Is Dead

HANNA, March 2.—(CP)—Mike Godeyko, 30, section foreman of the Canadian National Railway, died at 3 a.m. today after suffering from injuries received in the engine oil snowplow collision here Saturday. Five men had been previously killed in the collision.

Godeyko was trapped in the wreck for two and one-half hours Saturday night while rescue crews tried to free him. He was the last of most of the time, though he had suffered multiple body injuries.

Benickson Named Strike Conciliator

CALGARY, March 2.—(CP)—H. R. Benickson of Edmonton, labor relations officer of the Alberta department of trade and industry, has been appointed as a dispute between the Attitude and Miller Machine Works Ltd. and the Calgary area workers local of the International Union of Mine, Mill and Smelter Workers.

Huge War Aid Asked for China

U.S. Congress Advised to Vote \$100,000,000 for Military Supplies

WASHINGTON, March 2.—(AP)—William L. Bullitt, former United States ambassador to Russia, advised Congress today to vote \$100,000,000 for "military supplies to China."

Bullitt testified to the House of Representatives Foreign Affairs Committee, considering the administration's request for \$370,000,000 aid for China.

The administration's program contemplates only economic help for the Chinese.

KEY FACT EAST

"East is the key to the entire Far East. If our government should permit the Communists to take over China, it would have failed to bar the way to attack on our country by overwhelming masses of Stalin-driven slaves. We cannot successfully oppose the Communist conquest of the world by opposing Communism in Europe only."

He said a small amount of ammunition is on the way to China but the Soviet government "has been sending the Chinese Communists from both the enormous amount of equipment it captured from the Japanese and new Japanese equipment which it has manufactured in Korea and Siberia with Japanese machinery."

Income Tax Bill Changes Likely

TORONTO, March 2.—(CP)—Finance Minister Abbott said last night that the bill for new income tax bills "may be altered considerably prior to its reintroduction in the House of Commons."

Suggested alterations will not change the "general setup" of the bill, he said in an address to the Institute of Chartered Accountants of Canada. But he said he has a completely open mind on many points in the bill as it now stands.

Mr. Abbott said he considers Bill 454 "a great improvement over present Income Tax laws which, in his opinion, are a mess."

"It was suggested that a new law could be made much more clear by separating all the provisions which concerned the average individual from those which concerned large, highly-complicated corporations, and writing both divisions in simple language rather than in legal jargon."

"The drafters... came to me with a complete agreement, that it should not be done."

The language question presented a choice between "legal jargon" and "plain simple English."

"I think that law, to be properly interpreted, must be exact and explicit and care has to be exercised that the language is not so plain and simple that it is open to various constructions."

TOOTHBRUSHES NEEDED? CANBERRA.—(CP)—Surgeon-Commander W. E. Roberts of the Royal Australian Navy said after examining 600 recruits "I have been struck by the lack of care of the mouth." Teeth of Australian soldiers are "very bad" he said, and "some mouths" examined were "luckily neglected."

NO SUNDAY HURRY FOR DIAPER SERVICES

BOSTON, March 2.—(AP)—The Massachusetts senate yesterday rejected a proposal allowing diaper services to make emergency deliveries on Sunday.

Even the strange alliance of two bachelors and a father of twins could not save the measure.

Senator Philip G. Bowker, Republican, a bachelor, said he was all wrapped up in the subject and didn't intend to "pin anything on anybody."

"But it's time for a change," he added.

Waving a baby doll and a diaper, another bachelor, Senator Charles W. Olson, Republican, seconded Bowker's remarks.

The opposition prevailed.

Senator Willard A. Ormsbee, Republican, thought the measure should be referred to the next annual session, because "this bill is in its infancy."

The bill would have allowed diaper services to make emergency deliveries on Sunday.

Transport Planes Given Greece

ATHENS, March 2.—(AP)—The U.S. military mission turned over to Greece today a small number of American transport planes for use as supply transport.

The group of planes was the third given to Greece by the Americans.

The first two lots were small trainer types used for scouting or combat.

The transports were flown from the United States by American pilots of the 12th Troop Carrier Squadron.

Costas Rents, minister of public order, reported that the planes were being used by the Greek army for recent developments in the hostilities in Greece.

He said a roundup last week of suspected leftists in the Athens area was a precaution against an increase in sabotage or actual shooting in the capital.

The 22 Finnish Reds Back Russia Pact

HELSINKI, March 2.—(AP)—Finnish Communists today began organizing factory and trade union meetings to support a military pact with Russia.

The Communist group Trotskyans should resist war with Russia and friendship and assistance treaty with the Soviet Union because it is the best way to guarantee the interests of Finland and the cause of peace.

Political leaders held closed sessions to discuss whether Finland should resist war with Russia and what the consequences would be for the Finnish people.

They hope to have their answers ready for President Juho Paasikivi tomorrow.

The attitude of two important parties—the Agrarian Union and the Democrats—is expected to be made clear today.

The 22 Conservatives in parliament already have voted tentative opposition to the proposal.

It is known that the small Liberal party has decided to oppose the pact. It has seven seats in parliament.

No Decision Yet Pratt Appointment

OTTAWA, March 2.—(CP)—The joint Senate-Commons committee on Indian affairs was told today that no final decision has been made on the controversial appointment of W. F. Pratt as general executive assistant in the Indian Affairs branch of the Resources department.

This statement was made by C. H. Bland, head of the civil service commission, one of four civil servants called by the committee in its investigation of charges of "political" appointments to the Indian Affairs branch of the department.

Mr. Pratt is private secretary to Resources Minister Glen.

Bishop Sentenced 11 Years Hard Labor

BELGRADE, Yugoslavia, March 2.—(AP)—Vasilje Vasiljevic, orthodox bishop of Sarajevo, yesterday was sentenced to 11 years at forced labor. He was charged with betraying his country, helping terrorist organizations and leading enemy propaganda.

He is co-operating to a degree with a medical board set up by the New South Wales government to investigate his methods.

Spokesman for the medical board said today it is difficult to get Brisbane patients to submit to examination by board physicians.

With co-operation from Brand and his medical board, the committee expects to announce its findings within a few weeks.

Mr. Northern and Mrs. McIntyre today told the Canadian Press that the American climate is agreeable to them, making them feel much better.

Anti-Soviet Sentiment Sweeping Scandinavia

By Alo Fen

OSLO, March 2.—(AP)—A wave of anti-Soviet sentiment mounted against the Communist coup in Czechoslovakia and Russian pressure in Finland.

In Norway, Denmark and Sweden the feeling manifested itself in mass demonstrations and press attacks against the Soviet Communist over Europe.

Thousands of Norwegians demonstrated last night outside the Czechoslovak legation, later marching to the "Folkets Hus" where a Communist youth organization was celebrating the Czech coup in Prague.

Political leaders said anti-Communist feeling was running high in Norway as well as any time since the end of the war.

Denouncement Demands

In Denmark, pro-Russian after liberation from the Nazis, the Soviet demand on Finland was denounced.

"Danger is closing in on Scandinavia," said the conservative National Tidende.

H. C. Hansen, Danish foreign minister, said:

"We do not believe in a state community where people live as slaves. We will join in efforts to build up a strong defence which will show the Danes that we remain a free country."

In traditionally neutral Sweden, the press said, strong public opinion for effective co-operation with the West.

By sticking together loyally, the liberal Folketings Högskola said, "democracies as present Russia from subduing our country."

Other officers elected were: Elmer D. Power, M.B. Edmonson, third vice-president; Dr. A. W. Park, Calgary; Mr. E. G. Mason, Calgary; Norman Ritchie, K.C. Letbridge; J. E. Davies, Medicine Hat; J. P. Evans, Athabasca; James McMillan, Calgary; Mr. R. Procter, O.B.E. Edmonton; W. H. Chappell, Halmstad; A. G. Ayres, Red Deer; W. A. Church, Medicine Hat; and W. A. Austin, Didsbury, all district vice-presidents.

Mary Pinkman, O.B.E. of Calgary, is honorary treasurer. Col. F. C. Cameron, K.C. of Edmonton, is honorary secretary.

Mr. Farthing are honorary auditors and L. Col. D. H. Tomlinson, M.B.E. is provincial commissioner.

Subpoena Files On U.S. Scientist

WASHINGTON, March 2.—(AP)—The commerce department's subpoenaed files concerning Dr. Edward T. Condon were ordered subpoenaed today by Chairman J. Parnell Thomas (Rep.-N.J.) of the House of Representatives' Un-American Activities committee.

Condon, 46-year-old scientist and physicist, was accused by a House of Representatives group of being one of the weakest links in the atomic security.

He also was accused by the group, headed by Thomas, of associating with Communist agents.

As Thomas said to obtain records in the case, the atomic energy commission told a Senate-House committee that Condon has had no access to top atomic secrets.

Russia Charges British-U.S. Delay

LAKE SUCCESS, March 2.—(AP)—Russia's Andrei A. Gromyko accused the United States and Britain yesterday of blocking any efforts toward global arms reduction.

The Soviet delegate made an hour-long speech before the United Nations commission on convention arms control in closed session. He rejected a British resolution outlining preliminary steps towards arms reduction based upon development of full international conference.

He said the United States and Britain are obstructing international control of atomic energy and the creation of a UN global police force.

Report Benes Resigns Post

LONDON, March 2.—(AP)—The London Evening News said today public opinion in Czechoslovakia from Prague that President Edvard Benes has resigned.

"Last week he put his signature to a formal declaration relinquishing his title as president of the Czechoslovak republic," the Evening News said.

"Communists have not yet allowed the resignation to be published, in fear of a violent reaction among the people."

The British Press Association reported that an official at the Czechoslovak embassy in London yesterday denied the resignation report, saying:

"We are authorized to say that the resignation of President Benes has not resigned."

PRAGUE, March 2.—(AP)—President Edvard Benes remains under care of his personal physician, and his scheduled return to Prague Thursday still in question. The information ministry said today.

Annual Election, President Ousted

SAN JOSE, Costa Rica, March 2.—(AP)—Congress voted last night to annul the result of the Feb. 8 national election in which Otilio Ulate Blanco, an opposition candidate, was elected president.

After a four-hour debate, congress voted 25 to 19 to declare the presidential election fraudulent.

The defeated government candidate, former president Rafael Calderon Guardia, had protested that Ulate won by fraud.

The congressional action reversed a decision by the electoral tribunal which announced last Saturday that Ulate had won.

There was no immediate indication what steps would be taken to file the presidential office.

Moves For Free Hospitalization Mental Patients

Nearly 15 Million Dollars Is Now Owng to Government

Plan that free hospitalization and care should be given mental patients who have been resident in Alberta for more than 12 months is voiced in a resolution appearing on the legislative order paper for Tuesday in the name of Elmer E. Roper (CCF Edmonton).

It was learned that at the end of the fiscal year ending March 31, 1947, patients, former patients and relatives of patients in the provincial mental homes owed the government \$14,819,000, this amount is the result of many years of operations, it was pointed out.

Total net cash revenue from the mental hospitals and homes for the fiscal year covered in the last complete public accounts was placed at \$37,000 as against a total appropriation of \$1,260,000 for the mental institutions. To this appropriation could be added of \$1,700 for the farm operation at the mental institutions.

Under the Mental Disease Act there is a charge against the patient of \$1 a day, while under the Mental Defectives Act the municipality in which the defective makes his home is charged \$15 a month on his behalf.

It was pointed that these charges do not cover costs.

Local Jersey Cow Wins Top Honors

Edmonton's prize Jersey cattle have again come to the fore with recent announcement from Toronto that D. F. Haize had won top honors in recent national-wide contests with his "Mildred's Kentucky Lady," a first-year milk producer.

The cow was bred by Mr. Haize for P. J. McKee, Dunstable, Alta., and in recent tests produced 12,241 pounds of milk and 737 pounds of butterfat over a year's period. Silver and gold medal awards of the Canadian Jersey Cattle club will be bestowed on the cow in the near future.

ASK THREE-MAN REFEREE BOARD

Appointment of a three man referee board to settle disputes between employers and employees is recommended by the Unemployment Insurance Commission in a report to the government.

The Trades board also endorsed the resolution presented by Prof. J. L. Morrison, public school trustee, calling for a text book from primary up to and including 12 grade.

China Reds Trying Pinch Off Salt

NANKING, March 2.—(UPI)—Chinese Communists in Manchuria are trying to pinch off salt supply to the old town of Siping. They prepared to attack the new city a short distance to the west.

Nationalist military quarters believed that the Communists, under the command of Gen. Liu Xiaochang, would try to reach the government's Manchurian salt works as soon as possible.

British Baritone Will Give Concert in City

A singer whose rich baritone voice is already familiar to many western Canadians makes his first concert appearance in First Presbyterian Church on Friday, March 5. Randall Stevens represents a musical acquisition for Canada, for this distinguished British artist intends to remain in Western Canada.

Randall Stevens started his musical career very early—with the winning of a challenge cup presented to him by the United Empire Loyalists in 1914. He was then a member of the Sir Charles Villiers-Stanford. However, his professional career as a singer did not start until after the war.

He counts some 28 major operatic roles in his repertoire, among which are parts of Tosca in Pasticcio, Alfio in Cavalleria Rusticana, Yvonne in Faust, Cagliostro in Romeo and Juliet, Scarpia in Tosca, Don Juan in Don Juan, and Germont in Traviata.

With his selection to play the important role of Wolfram in Tannhauser came one of the high spots of his career.

World War Two interrupted, but did not completely interfere with the musical career of Randall Stevens. He was chosen to represent the Royal Air Force at Remembrance service in Albert Hall, at which the Majesties the King and Queen were present.

Concert in First Presbyterian Church on March 5, is under sponsorship of the First Presbyterian Church and the Edmonton Y.M.C.A. and will be held in the church office, and at Heintzman.

Death of Divine Is Loss to Boys

Albert boys lost a devoted friend Monday in the death of Rev. Austin David Richard, who, since he retired from the United Empire Loyalists two years ago, has made his home at 12519 127 St.

Mr. Richard was born at La Haye, N.S., in 1871. He graduated from Mount Allison University in 1904. He was married in 1909 to a former Nellie M. Laidlaw of the latter, Alta.

Mr. Richard took a great interest in organization of summer camps and recreation for boys. A keen sportsman, he was a member of the Amateur Athletic Union of Canada.

Surviving him beside his wife are two sons, Dr. H. L. Richard of Edmonton and Mr. F. H. Richard of Vancouver. There are five grand-children.

UNDRESSED BEFORE GUESTS, DIVORCE ASKED

LOS ANGELES, March 2.—Mrs. Elaine Wilens, 31, told the court yesterday that her husband pulled down the wall bed and began undressing before guests.

Mrs. Wilens, in asking for a divorce, testified that her 22-year-old husband, Seymour, was always moody. "Once he got up during a bridge game, three or four times at me and talked out of the room."

"You tramp his ass," asked Judge Fred Miller, who granted the divorce.

"No, but he didn't like the way I played."

SAFELY KEEPING HOUSE with her dolls, is Margaret Carol Brown, 12710 Stony Plain Road. But her housekeeping duties are not sufficiently preoccupying to keep her from thinking of the plight of Europe's children. Recently, after hearing a broadcast by John Fisher on behalf of the Canadian Appeal for Children, Margaret wrote him a letter. Here is part of what she wrote: "I have just heard your story about Hanna and her brother (two Warsaw children). I am enclosing two dollars for a little child. I think that it would be useful to some little child in Poland, Czechoslovakia, or France, or some other country. I am very sorry about them. It makes me cry to think of them. I think it is a good idea to send them food, clothing and toys. Margaret is ten years old and a fifth grade pupil at Glenora school. Alberta's quota in the Appeal for Children is \$750,000.

Fears Many Jobless If Immigrants Come

A pool of unemployed on which industry could call for ill-paid help would result, if the provincial government proceeds with its plans to bring any considerable numbers of Britons to Alberta, W. J. Williams (Vet Edmonton) warned members of the legislature on Monday.

He was speaking in the debate on the Speech from the Throne, and pointed out nearly 3,000 were registered as unemployed in Edmonton at the present time, with only two or three hundred jobs available for them.

He recalled conditions of the "hungry thirties" and repeated a warning that if the provincial government made arrangements for a mass immigration scheme, it should be called on to pay the full scale of relief, if another depression appears.

LAUDS HOSPITAL PLAN
He congratulated the government on its announced intention of erecting a new 200-bed tuberculosis hospital in Edmonton. Though medical services offered to tuberculars in the city was of the highest calibre in Canada, housing for the patients, particularly those who were in the hospital during the 1947 season, was inadequate, he thought.

He noted that some improvement had taken place in conditions in the province's mental institutions and congratulated the government for that, as he recalled some of his charges leaving the hospital during the 1947 season.

The same criticisms still applied in many cases, he said, but the overcrowding had been greatly alleviated and more was being done at the time went on to make the conditions of mental patients more comfortable.

He said staff conditions in the mental hospitals had improved since the last previous session. He attributed the rise in the number of short-term patients which now applied to the hospitals. He recalled that he had pressed for these changes during the previous year.

SAFETY HABITS TAUGHT
Habits of safety are taught. The child is instructed in the meaning of stop signs and signals, cleanliness and health habits are given special emphasis.

Social and mental aspects of kindergarten training were discussed by Miss Hughes. She stressed that the child learns orderliness in thinking and in play. His vocabulary is increased, he learns something of the art of conversation. The playing of suitable records develops a sense of rhythm and music appreciation.

NO PROVISION MADE
In the discussion of the suspension of the university give special training in the faculty of education for child teachers will be equipped to handle kindergarten when it is introduced to child schools.

WIFE DIDN'T LIKE WRESTLING
CHICAGO, March 2.—(AP)—Mrs. Virginia Botica, 26, filed suit for divorce yesterday here, because, she alleged, her husband, a professional wrestler, compared active life with his profession with the plaintiff as an unwilling assistant.

The suit charges John J. Botica, 29, with cruelty. It also alleges for an accounting of \$15,000 which Mrs. Botica alleges her husband transferred from their bank account and hid.

Governments Should Pay Taxes

Mayor Harry Ainlay is plainly right in his contention that the federal and provincial governments should pay taxes, or at least grants in lieu of taxes, on their non-administrative property within the limits of the city of Edmonton.

The old principle that no government should tax another became an out-courtesy when government went into business. It became a decided imposition on civic taxpayers when these larger governmental units began to transact their business, not in new premises erected for the purpose, but in purchased buildings that hitherto had yielded revenue to the city.

On provincial properties within the city, the city assessment calls for payment of \$41,270 in taxes every year. Of the more than seven million dollars' worth of property held by the provincial government here, \$6,400,000 of it is used for administrative purposes while \$680,000 of it is used for business purposes.

Dominion government holdings in Edmonton are worth \$4,700,000.

The reasoning upon which one government was induced to refrain from taxing another arose from the entirely erroneous thought that since the people had to pay the expenses of government anyway, there was no sense in taking it out of one pocket and putting it in another.

This logic might be tenable if all governments had an equal chance at the taxpayers' pocketbook.

But since a municipal government is limited to property taxation, it can become financially embarrassing if other governments, with a much wider range of taxation, claim immunity for all their enterprises.

Certainly it imposes an unjustifiable load on city property owners and upon tenants who indirectly pay towards the support of civic government.

So finally has to bear the expense of running Edmonton. If provincial and federal government property owners do not carry their share, the private property owner must dig down just that much deeper.

Helpful in War, Now in Peace

The chief reason the Red Cross is entitled to full public support in its campaign for funds, now opened, is that it is trying to perform exactly the same service in peace time as it performed with magnificent success in times of war.

In Canadian minds, the Red Cross has always been associated, almost exclusively, with a war effort. The phases of its work most highly dramatized have been those connected with supplying comforts and the medical and surgical necessities to men on active service.

Actually, the Red Cross can do, and has commenced to do, just as big a job in normal times as during wars.

Traffic Snarls at 109 Street

The traffic division of the Edmonton police department should study the problems posed by rush-hour traffic at Jasper avenue and 109 street.

One is not concerned so much with the delays in vehicular traffic caused by confusion at the intersection although these are of major importance. But the hardship imposed on the pedestrian who, with a limited lunch hour at his or her disposal, is forced to wait a break in the long stream of cars heaving for the West End, or the High Level Bridge, is real and intolerable.

Both pedestrian and motorist are entitled to a free and untrammelled course on the highways. Neither gets it when there is complete lack of control at intersections.

A "Dollar Scarce" World

Norway also is running short of dollars, and will put restrictions in the way of imports from dollar countries. The list of nations which have taken such action is one way or another already long and getting longer. Britain has clamped on restraints; France and Holland have devalued their currencies with like results; Australia has adopted two-way controls to limit imports and exports; China and the United States have imposed exchange embargoes; Canada therefore has no cause to feel lonesome behind its moderate and temporary barriers against excess buying in the United States.

The fact is that circumstances have put almost every country in the world on the short end of exchange with the United States. Dollars are preceded by the minus sign in the trade returns of every country in Europe. Russia is short eleven billions of them, has been since war days. In Asia there are so scarce that one of them brings 2,400 Chinese dollars. How many a Japanese would give for one is hypothetical.

A worse feature is that if Washington by some financial wizardry were to restore dollar balance with all these countries, the balance would only last over-night. New orders for supplies in excess of exports to the United States would upset the exchange equilibrium as soon as the dollar could be filled. This is the larger "dollar problem"—how to keep the exchange in balance once the present shortages have been made up or cancelled out.

World trade is to flow freely between nations, there will have to be some device to keep one country from sliding farther and farther into debt to another; or, the present situation suggests, how to keep all the others from slipping perennially farther into debt to the United States.

It is the words, not the music that expresses the concept. Shostakovich's 13th Symphony may express to those who have an ear for music the same melody, but when, to the same melody, we sing "Hail Jeff Davis to a Sour Apple Tree," the melody becomes as mean and cheap and vindictive as the words.

LETTERS TO THE EDITOR

Pen Friends

Editor, Bulletin.—I have been trying for some time to find out an office able to put me in touch with girls and boys from foreign countries, interested in correspondence with young Germans. I am sure that all my efforts have been in vain up to the present.

Regarding my personality I may state that I am 21 years old and teaching in a public school as well as Latin at high school and at college. I am highly interested in stamp collecting, foreign languages, arts, habits and sciences of other countries, furthermore, an fond of dancing, movies, reading good books and of sports too.

Two Concepts

Editor, Bulletin.—In regard to the letter from our good friend Mr. P. N. Bowden, "Musical Idiom" in a recent issue of the Bulletin, it seems to me Mr. Bowden is confusing words with music.

He says "Glad Save the King" results in a certain political result as to monarchy. To the same result the American "My Country 'Tis of Thee" and give such a different political concept that some 170 years ago the British and Americans fought for some long bloody and desperate years over it. If Mr. Bowden is right how could the result be so different?

The Battle Hymn of the Republic. "Mine eyes have seen the glory of the coming of the Lord." Those words are to its small but still have a profound and inspirational effect on those who sing it and the melody goes deep, but when, to the same melody, we sing "Hail Jeff Davis to a Sour Apple Tree," the melody becomes as mean and cheap and vindictive as the words.

THE hottest news of this week, in the judgment of this reporter, centres about the strenuous denials by the Canadian Olympic Committee in the East to run down charges that one or two players had been in the National Hockey League went on the "air" last Saturday night.

It is especially fond of a puddle or pond when it rains and it rains it bottoms up.

More than 27,000 of the world's displaced persons have found a home in Britain. This is the largest group of hockey players settled in any country. 28,000 are men who are working mainly in agriculture, coalmining and in the iron and steel industries. OUR TOWN

By Jack Scott

With Chest Afire He Conquers 'Flu

Up until a couple of days ago (Saturday) at six bells, the town of Edmonton was a social event. I stood a little apart from groups of fellow workers in the street. Friends looked on as if of a kind of "I had been to feel the men in the ads who haven't discovered that certain kind of car can say 'Emulating'.

My trouble was simple. I hadn't had the flu. I was it, seemed, the only man in the Western Hemisphere who hadn't "come down with it."

Just when I was beginning to contemplate retiring to a cave and happily sleeping Monday morning with some really apocalyptic symptoms.

Every bone in my body ached. My eyes were magnificently puffed up and red, and my nose, hot as a red-hot iron, had been burning for some time. My chest felt as if it were being squeezed by a giant hand. I was given a few weeks with a stout rubber hose. When I awoke in the morning, it seemed as if someone had pumped several pounds of free air into my head over the top.

I do believe I am coming down with it. I said to my wife with a happy smile.

And I was. By mid-day I was stronger, wiser. Once more I was accepted as one of my fellow workers and spent most of the afternoon in informal conversation describing my symptoms and listening to the other sufferers describe theirs, all of which involved each aching bone in the body, the hot eyes, cold chills, the inflated cranium.

Driving home across the bridge my car was being followed by a car. I was conscious of the fact that the toll-taker was coming. I was in a hurry. "Yes," I said in a hurry. "I've come down with it."

I had myself last week. Every bone in my body was aching. I pulled away hurriedly.

On Tuesday morning there was no doubt about it. Someone had moved my eyes a full inch closer together, my nose had become the classic proportions and I had a cough that clearly called for a doctor. I had been shot from a giant gun.

Fortunately, my wife is superb in such crises. "Stay right where you are," she commanded. "The flu," I was too weak to protest.

My wife went to the drug store and returned with small packages. "It is Thiamofin for your chest," she said. Thiamofin is not the real word, but I don't want to be. From the package she produced what seemed to be several blankets of peach-colored cotton and a list of questions only slightly different from an Alaska Highway road map.

"It says for quick results to dampen the Thiamofin with whisky, Eau de Cologne, or vinegar."

"Percy," she didn't remember me. And only last summer we were engaged. "Percy," she said, "just like a woman, old chap—never can remember a joke!"

Doctor's Wife: "And what does your husband do?" "He's an efficiency expert in a large office."

The Bright Young Thing entered the shop and approached the counter. "I would like to present for an old gentleman," she said. "Yes, Miss," replied the assistant. "Could you not be just 'No,' he has a beard."

Driving home across the bridge my car was being followed by a car. I was conscious of the fact that the toll-taker was coming. I was in a hurry. "Yes," I said in a hurry. "I've come down with it."

I had myself last week. Every bone in my body was aching. I pulled away hurriedly.

On Tuesday morning there was no doubt about it. Someone had moved my eyes a full inch closer together, my nose had become the classic proportions and I had a cough that clearly called for a doctor. I had been shot from a giant gun.

Fortunately, my wife is superb in such crises. "Stay right where you are," she commanded. "The flu," I was too weak to protest.

My wife went to the drug store and returned with small packages. "It is Thiamofin for your chest," she said. Thiamofin is not the real word, but I don't want to be. From the package she produced what seemed to be several blankets of peach-colored cotton and a list of questions only slightly different from an Alaska Highway road map.

"It says for quick results to dampen the Thiamofin with whisky, Eau de Cologne, or vinegar."

"Percy," she didn't remember me. And only last summer we were engaged. "Percy," she said, "just like a woman, old chap—never can remember a joke!"

Doctor's Wife: "And what does your husband do?" "He's an efficiency expert in a large office."

The Bright Young Thing entered the shop and approached the counter. "I would like to present for an old gentleman," she said. "Yes, Miss," replied the assistant. "Could you not be just 'No,' he has a beard."

"SORRY, MISTER," says attendant Phil Brangwyn, as a motorist pleads for gas at Leo Gregory's service station in Vancouver. Like many other stations, its tanks were dry.

OPERATION WAR BRIDES ABOUT OVER

OTTAWA, March 2.—(CP)—The curtain falls on operation "war brides," when the Aquitania docks in Halifax today. Seven wives of Canadian servicemen, and their five young children, will step down the gangplank, closing the final chapter in the Canadian government scheme through which more than 40,000 second world war brides and children have come to the Dominion.

The group will scatter to homes in Alberta, Saskatchewan, Ontario and Quebec.

Mrs. Johanne Hiley, and her two young children are headed for Lacombe, Alta.

Britain Improves Her Coal Position

LONDON, March 2.—(AP)—Britain has imported 660,000 tons of coal from the United States since last winter's fuel crisis, at a total cost of about \$3,000,000 (\$12,000 delivered), Fuel Minister Hugh Gaitskell reported yesterday.

Aided by a mild winter, Britain now has improved her coal position and plans to export more than 15,000,000 tons herself this year, and "it is not intended to import any more coal from the U.S.A."

U.K. House Backs Defence Policies

Amendment Moved by Eden Voted Down by 243 to 122

By James McCook

LONDON, March 2.—(CP)—The Labor government last night won House of Commons approval for its defence policies and post-war reduction in Britain's armed forces.

A Conservative amendment, moved by Anthony Eden, deputy opposition leader, charging that there was an "apparent absence of comprehensive measures for a coordinated and up-to-date system of national and imperial defence" in the government's policy, was defeated 243 to 122.

SHOOTS BRIDE DURING WEDDING

DENVER, March 2.—(AP)—Charles K. Geiser, 24, who shot his bride to death while celebrating the "ill death do us part" ceremony, was sentenced yesterday to 45 years to life imprisonment. He was convicted of second degree murder in the slaying of his bride of three weeks last Sept. 18.

Senator Robicheau Dies in Quebec Hospital, Aged 74

QUEBEC, March 2.—(CP)—Senator Robicheau, 74, of Maxwellton, N.S., who represented Digby-Clare, died in hospital here yesterday. A life-long Conservative, he was the first Acadian to second the speech from the throne in the Nova Scotia legislature in 1938.

Party standing in the senate now is: Liberal 65; Progressive Conservative 21; vacant 10.

Senator Robicheau's death creates the third Nova Scotia vacancy. Other vacancies: Ontario 3, Alberta 2, British Columbia 1, New Brunswick 1.

Guatemala May Break With U.K.

GUATEMALA CITY, March 2.—(Reuters)—Severance of diplomatic relations with Britain and cancellation of the Anglo-Guatemalan meat contract, which calls for shipment of 400 tons monthly, are considered here as a result of intense feeling over the question of British Honduras.

President Arévalo of Guatemala suddenly cancelled a speech he was to have made to congress yesterday. He spent the day at a cabinet meeting discussing the situation.

There have been anti-British demonstrations in this city.

The press has been openly demanding the invasion of British Honduras, but here as in Belize this is not considered an immediate likelihood.

Pope Observing 72nd Birthday

VATICAN CITY, March 2.—(AP)—Papal banners flew today from Vatican City in honor of Pope Pius 72nd birthday and the ninth anniversary of his election as Pontiff.

Both events will be observed formally March 15, anniversary of the Pope's coronation, with the Pope of the Vatican offices were closed today, but the Pope went about his usual duties.

BARBARA ANN YEARNS TO COOK AND TO SEW

OTTAWA, March 2.—(CP)—Canada's queen of the ice blades, Barbara Ann Scott, won professional for another year at last.

But she still has a feminine yearning for a domestic science course. "She wants to learn to cook and sew," confided Melville F. Rogers yesterday.

Mr. Rogers was Canadian judge at the European championship competitions in which the Canadian girl won her triple crown, and spent seven weeks in Europe.

"She has her eye once more on the world figure skating championships, which probably will be held in North America next year," said Mr. Rogers, a former North American and Canadian figure skating champion.

Earlier yesterday Donald Cruikshank, president of the Minto Skating Club, confirmed the arrival of the skating queen at Ottawa March 5.

British Cruiser Visits Falklands

PORT STANLEY, Falkland Islands, March 2.—(AP)—The British cruiser Nigeria and the sloop Snipe left Port Stanley yesterday for a visit to Falkland Islands dependencies.

Argentina and Chile are constant British sovereignty over these islands. The dependencies are on the edge of the South Atlantic.

Sir Miles Clifford, governor of the Falklands, was aboard the Nigeria.

The Argentine naval force which has been cruising in the area which Argentina claims from Puerto Beltrane, Argentina, yesterday.

Asks Europe Aid To Half Red Drive

WASHINGTON, March 2.—(AP)—Senator Arthur Vandenberg (Rep.-Mich.) urged the Senate Monday to "right the balance of economic aid to Europe before aggressive Communism" knocks on the New World's door and threatens its freedom.

Beginning debate on the \$3,000,000 Marshall Aid Plan, the chairman of the Senate foreign relations committee told his colleagues:

"This act may well become a beacon in the world's dark night. But if it had been lighted at all, it had better be lighted before it is too late."

Across the capital, the House of Representatives foreign affairs committee said it would ask \$700,000 aid for China and \$275,000 for Greece and Turkey.

HABEAS CORPUS HEARING

Jailed Newsmen to Open Fight for Press Freedom

WHITE PLAINS, N.Y., March 2.—(BUP)—Two Newburgh, N.Y., newspaper editors, jailed for refusing to reveal a confidential news source, were to appear in supreme court today for a hearing on their application for a writ of habeas corpus.

The men, Douglas Clark, 33, news editor of the Newburgh News, and Reporter Charles L. Leonard, 27, will appear before Justice J. Gordon Flannery, who sentenced them.

Supreme Court Justice Frank H. Coyne signed the show-cause writ after reversing a decision he made last Saturday.

Clark and Leonard, convicted of contempt of court, were sentenced to 10 days imprisonment and fined \$100 each for refusing to tell a grand jury how they obtained lottery tickets reproduced in their paper as part of a gambling expose.

The newspaper claimed it was against the code of ethics of the newspaper profession to reveal the source of off-the-record tips.

PRIVILEGE BILL

Memoir, in Albany, a bill to give newspapermen the privilege of refusing to disclose confidential news sources was introduced in the state legislature by Sen. Thomas C. Desmond and Assembly Majority Leader Lee B. Maillor, both Republicans from Orange county.

The bill would guard newsmen from proceedings similar to the Clarke-Leonard contempt case.

In a radio broadcast from inside the Newburgh jail last night, Leonard spoke of his imprisonment as a "privilege."

"I like to fight for a good principle," he said.

Leonard declared that the two men were doing everything they could "to help all others who live in freedom of speech and freedom of the press, and to make it unnecessary for anyone else in New York state to have those steel doors slammed in his face for obeying the code of ethics of his profession."

British Columbia Has 31,000 Jobless

VANCOUVER, March 2.—(CP)—British Columbia's peak in seasonal unemployment has left 31,000 persons fighting for only 2,000 jobs.

In the Vancouver area, which extends 300 miles north of the city, 17,000 persons are looking for work. There are 916 jobs available.

Dr. Fish Heads McLennan Body

Chamber of Commerce Work Reviewed at Annual Meeting

McLENNAN, March 2.—Dr. H. Fish, president of the McLennan Chamber of Commerce for the last year, was re-elected to that post at the annual meeting in the Elks' hall here recently.

Others elected include: vice-president, Theodore Quill; secretary, G. B. Stephens; executive committee, J. Kator, P. A. Giroux, Rev. Fr. Heugler, A. Mungali, H. H. Stevens, E. Lamoureux, Dr. A. Piche and J. Dorelli.

In his address, President Fish outlined the activities during the year. Reports from the various committees were also read.

Main items of interest were the progress made in connection with the proposed diversion of the Heart River, which will reflect the lake at McLennan; and the work of the

highway committee in connection with the "short route" between Edmonton and Dawson Creek, through McLennan and Spirit River.

Carnival Postponed
BOWDEN, March 2.—Annual Bowden carnival, scheduled for last Friday, was postponed for the second time. Date will be announced later. Two young Bowden girls are seeking the honor of carnival queen. SHOPPING GUIDE

Budgeting, Shopping On Partnership Basis

By Bea Thrifty

Your husband probably has some definite ideas about what's good on a platter and if he's forever making wisecracks about Aunt Lucy's chocolate cake or his mother's roast beef, plan the meals together. Then do the staple shopping for the week together. This way he can't complain about never having anything in the house.

"How about your budget?" is it getting ridiculous? Or do you know how to cook it into giving you good nutritious, low-cost meals?

Hamburgers are tops for easy, inexpensive meals and when you serve them on buns with all the trimmings you can make a picnic party out of an everyday supper and save on the dishwasher.

Good trick is to shape the burger very thin and sandwich a thin slice of onion or Canadian cheese between two slim ones until before cooking.

Seasoning ideas: To one pound of ground beef which you can buy for around 25c, add 4 tablespoons finely chopped green pepper and two teaspoons Worcestershire sauce—add 4 tablespoons chopped parsley and 4 teaspoons prepared mustard.

Don't know about this business of living as cheaply as one but it's a sure thing that the average young couple can't afford to live on steaks and roasts the time. But just watch the young husband go for a savory steak with tender juicy meat and vegetables. You can buy boneless beef, suitable for stewing at 38c a pound and tomatoes and carrots are plentiful. Pick the carrots with the seasoning and you'll have a dish fit for a king.

Away from the fascinating subject—food—for a moment and let you about a wonderful liquid make-up. I've just found. It does the same job as pancake make-up.

Why Grow Old?

By Josephine Lowman

Officer and offender, when talking to experts in different fields, I run across the notion that too many women grow old. I have written about this several times recently because I have long felt that this is true. Colors are most flattering to the middle-aged and give a bloom and a pickup.

Psychologists have noted that virtually all of the women who come to them for help in overcoming deep depression wear either black or dark. I have written about this several times recently because I have long felt that this is true. Colors are most flattering to the middle-aged and give a bloom and a pickup.

DOROTHY DIX SAYS—

Dull Marriage Better Than Living Alone

DEAR DOROTHY DIX: Lots of women are miserable because their husbands don't get along with them. I'm telling them that if they want to live with their husbands, they must learn to live with them. I am 25, very good-looking, a nice figure, a sweet disposition, easy to get along with. But I also have two children and we live at home with my parents. I work in an office and my mother keeps the children, and let me tell you that it's a two-families-under-one-roof policy doesn't work.

Right now I am so fed up with this arrangement that I would be willing to marry any nice, desirable, dependable, child-loving, home-loving, tall, dark, handsome and financially well-off man who would ask me to leave home.

Your Baby and Mine

By Myrtle Meyer Eldred

All babies show temporary distaste for the foods provided for them. One will refuse cereal, or some particular kind of vegetables. For the time it would seem that they could never be wheedled into taking the food they have begun to greet with closed mouth or a repulsed hand.

These are not problems of world-shaking importance. They are and should be temporary. The child likes no cereal then substitute crackers and milk, bread and milk, bananas and milk or potatoes mashed smooth with hot milk. If he has the privilege of refusing food he doesn't like, for the moment, he'll have no reason to keep on refusing once he has lost his notions about it.

My M.C. says her eight-month-old daughter is turning around cereal. "She wakens at 6 to 7 a.m. but as we all get up at that time, I give her only seven ounces of milk. At 9 to 9:30 I offer her cereal but she won't open her mouth for it, but she will take seven ounces of milk."

"Her lunch is about noon and consists of vegetables and fruits, peach-juice of eggs and her six to seven ounces of milk. She takes a long nap then. About 3 p.m. I give her orange juice and her vitamin drops."

"At 5 p.m. I want to eat and give her a combination of fruit with cereal, but she is beginning to dislike that. I give her egg yolk, occasionally. Can you tell me what else I can give her a breakfast and dinner instead of the cereal? She has no teeth and she sleeps all night."

The hours at which you feed her are not the best. The interval between 7 a.m. and 9:30 a.m. is too short.

No wonder she isn't hungry in just two hours after she drinks that first seven ounces of milk. When she wakes up with a full coat as I hold her with a cracker, until such time as you can give her the first meal of the day—her breakfast—with one of the cereal foods suggested.

Then it is mid-morning give the heartless glances of everyone you know. You can't camouflage your defects with a full coat as I start now to trim down your figure. Exercise is the best and most enjoyable way to revitalize your appearance. Hips, thighs and waist usually cause the most trouble. So here's one exercise to get you started.

Begin on your hands and knees, head up. Pull right knee up to chest, then straighten knee and swing leg back as high as possible, and back to position. Repeat four times with right knee, then with the left. Rest. Sixteen to twenty-four times altogether.

Getting a dowager's hump? Legs too thick? The longer styles may solve your problem. Buy a summer sportswear, filmy evening clothes leave little to the imagination. You must look young, feel young with a figure to prove it.

Old Line Parties Name Candidates

LONDON, March 2.—(Reuters).—Three candidates from the traditional British parties were nominated yesterday to contest the House of Commons by-election at North Croydon, London residential suburb.

They are Harold Nicolson, author and journalist, Labor; Frederick W. Harris, a local man, Conservative; and Air Vice-Marshal Donald Bennett, recently dismissed chief executive of British South American Airways Corporation, Liberal.

Poling will take place March 11. The contest was caused by the resignation of former Conservative minister, Henry Wilks.

WASHINGTON, March 2.—(AP)—A report charging that the head of the United States government's bureau of standards is "one of the weakest links in our atomic security" spurred two congressional committees into action today.

Won't Change Stand on Hong Kong Data

OTTAWA, March 2.—(CP)—Prime Minister Mackenzie King said yesterday in the Commons that the United Kingdom government has declined to alter its decision with respect to the tabling here of certain documents in the evidence compiled by the royal commission on Canadian participation in the defence of Hong Kong.

Mr. King announced last week the British government had consented to have most of the evidence tabled, providing code messages were paraphrased and providing certain other telegrams were shown only in leaders of the opposition parties.

Hon. C. G. Power, former air minister and defence minister when the Canadian expedition was sent to Hong Kong, asked that Mr. King urge the British government to review its decision and to permit tabling of all evidence. Mr. King agreed to the request, but the reply from the U.K. government was that it could not alter its previous decision.

French Rail Workers Commit Communists

PARIS, March 2.—(Reuters)—Some 100,000 of France's 430,000 railway workers yesterday linked up with the non-Communist force Ouvriere, which broke away from the Confederation Generale du Travail in the strike wave last November. The railwaymen decided only to strike in the case of "grave threats to trade union liberty."

Use Martial Law If Army Wants It

LONDON, March 2.—(Reuters)—If the British military authorities in Palestine desired to impose martial law the British government would acquiesce, David Bevin Williams, undersecretary for the colonies, said Monday in the House of Commons. When Anthony Eden, deputy leader of the opposition, asked whether the government could say that if martial law would help the protection of British troops it would at once be declared, Bevin Williams replied: "We have looked into this but the military authorities up to now have not decided to have martial law imposed."

49 Calgary Firemen Injured During 1947

BAN ON MARGARINE UP TO PARLIAMENT

QUEBEC, March 2.—(CP)—External Affairs Minister St. Laurent said yesterday that revision of the Geneva trade agreements at Havana, Cuba, has no relation to the prohibition of oleomargarine in Canada, which remains the responsibility of Parliament.

Mr. St. Laurent in addressing the National Dairy Council convention said the prohibition has been part of the Canadian Dairy Act and is not altered by provisional application of the Geneva agreements.

He said he was not prepared to forecast any action by the government or Parliament but if import or manufacture restrictions were lifted there still would be the same quantity of oils and fats. What went into oleomargarine would form part of the total available oils and fats obtained through importation or manufacture.

LONDON, March 2.—(CP)—Alberta House, a Georgian residence just off Berkeley Square in central London, was opened Monday as headquarters of the province of Alberta in the United Kingdom.

"Alberta House was formally established today without ceremony and while furnishings are still moving in," said H. A. McCallum, agent-general.

"Its services now are available for the numerous inquiries received about immigration to Alberta."

Hon. A. J. Cooke, Alberta minister of economic affairs, was at Alberta House during the day. Despite shipping delays, he said he hopes to be in Edmonton towards the end of March and after the legislature session ends.

yesterday said a bill of receipt must be presented with applications for registrations in all cases where the car owners cannot produce a 1947 registration certificate.

Crown to Claim Bulk Of \$1,000,000 Cache

OTTAWA, March 2.—(CP)—The revenue department will open a legal battle in exchequer court today for possession of \$863,331, bulk of a \$1,000,000 cache seized in a Montreal safety deposit box some weeks ago, on the ground the amount is due the crown in back taxes.

A writ against Albert Sansoucy, described as a Montreal textile merchant, was sworn out by William Sealy, deputy revenue minister for income tax, whose affidavit said:

CLAIM LARGE DEBT

"Preliminary assessment of the taxpayer's (Mr. Sansoucy's) revenue was made Feb. 4 from which it appears that the taxpayer is indebted to the crown for the years 1942 to 1946 in the sum amounting to \$863,331.55 or thereabouts, plus interest."

"Securities amounting to approximately \$100,000 belonging to the taxpayer are at present under seal by the foreign exchange control board, who are contemplating prosecution of Albert Sansoucy for

PONTIAC

THE FINEST CAR IN THE LOW-PRICE FIELD MADE EVEN FINER!

A Product of General Motors

Available with certain models at extra cost.

Sixes and Eights with the Famous GM Hydra-Matic Drive!

Today, Pontiac announces a series of notable advancements in the car that has already won the wholehearted endorsement of more than a million owners and friends. Foremost among these advancements is the great General Motors Hydra-Matic Drive.* Pontiac is the lowest-priced car in the world to offer (as an option) this great mechanical masterpiece — which shifts gears automatically, and completely eliminates the clutch pedal.

Coupled with this great engineering triumph is a striking improvement in beauty and luxury. New exterior smartness extends from the new radiator grille to the streamlined rear bumper.

Interiors, too, are remarkably improved. Upholsteries are more beautiful and provide new attractiveness and charm. Instrument panels are finished in a smart design, and an adroit use of chrome moulding adds a deft touch of modernity.

Engine and chassis retain, basically, the same engineering masterpieces which have become synonymous in the automotive industry with goodness and dependability.

A wide range of Pontiacs is produced in many body types and striking colours, with six and eight cylinder engines, and with wheelbases of 116" and 119". This triumph of engineering stands alone in its field for beauty—for performance—for comfort—for dependability. Again for 1948—it is truly THE FINEST CAR IN THE LOW-PRICE FIELD.

Cattle Embargo To U.S. Protested Government's Policies Under Fire From Many Sides Monday

By George Kichen

OTTAWA, March 2.—(CP)—The government's housing policies came in for criticism in the Commons Monday, touching on a half-dozen themes, was resumed yesterday in the Commons.

The debate, expected to be concluded this week, also produced protests against the government's embargo on beef cattle shipments to the United States and a suggestion that the Dominion undertake the building of a paved Trans-Canada highway.

Speakers included Rupert Aylesworth (PC-Frontenac-Addington), John Blackmore (SC-Leithbridge), Joseph Burton (CF-Humboldt), and Allan Stewart (CF-Winnipeg North).

Trade Minister Howe first told the house that the government will continue until July 31, 1949, its present support prices of 61¢ cents a bushel for No. 1 feed oats and 90¢ cents a bushel for No. 1 feed barley, both in store for William-Port Arthur.

SUBSIDIZED HOUSING

Mr. Stewart urged the government to embark on a program of subsidized dwellings to provide decent living conditions for those earning depressed wages and called for the establishment of a government department devoted to problems in the housing field.

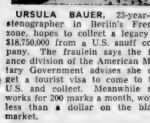

Mr. Aylesworth called for the lifting of the embargo on beef shipments to the United States and said the removal would lower prices in the U.S. and assist the United Kingdom, which now had to pay world meat prices on the Chicago market.

Touching on high living costs, Mr. Aylesworth said farmers were not responsible for high prices. Farmers were looking for money that would permit them to improve their farms and to provide for their old age.

NEED MORE FOR BEEF

Mr. Blackmore also urged the removal of the beef embargo, arguing that producers in Western Canada now were getting 15¢ cents a pound for their beef when they needed 17¢ cents to make a profit at current costs of production.

Mr. Burton proposed that the federal government undertake the building of an all-weather highway from coast to coast which should have northern and southern arteries in the prairie regions.

URSULA BAUER, 25-year-old stenographer in Berlin's French zone, hopes to collect a legacy of \$137,500 from a U.S. mail company. The fraulein says the finance division of the American Military Government advises she can travel via coast to coast in the U.S. and collect. Meanwhile she works for 200 marks a month, worth less than a dollar on the black market.

Top Money Actors

WASHINGTON, March 2.—(AP)—Actors Humphrey Bogart, Bette Davis and Dennis Morgan each earned more than \$200,000 during the 12 months ending last August. The figures: Bogart, \$487,361; Miss Davis, \$238,000; Morgan, \$232,933. This was disclosed yesterday in an annual report of Warner Brothers filed with the Securities and Exchange Commission.

Witness Says Bakers Losing Money on Bread

By John Leblanc

OTTAWA, March 2.—(CP)—Bakers are losing money on their bread, the Commons prices committee was told by a spokesman for the industry Monday as it pursued its search for the causes of higher prices for that commodity.

"I think there is no profit now in making bread—that there is a substantial loss," R. P. Sparks of Ottawa, executive secretary of the national council of the baking industry, testified when he was asked about bread profits.

Mr. Sparks indicated that in many cases bakers' sales of cakes and similar products were making up for bread losses. Discussing the effect of bread-price decontrol and the simultaneous removal of four subsidies last September, Mr. Sparks said a three-cent increase in the price of bread effected then would bring no profit to bakers.

CUTS CONSUMPTION

"Some will be worse off," he told the committee, declaring the added price was largely absorbed in costs. Immediate effect of the higher price, he said, was to decrease consumption of an elite dependent on its profit on volume sales.

Other developments: 1. Hughes Cleaver, Liberal committee member for Halifax, advised the committee a bread retailer had told him a baker threatened to cut off his supply if he sold bread at less than the retail price indicated by the baker. He called for investigation of this charge.

2. James M. MacDonald of Toronto, secretary-treasurer of General Bakers, Ltd., said some retailers were selling his company's bread at below its suggested retail price and no disciplinary action had been taken against them.

3. Mr. MacDonald told the committee his company had been losing money on its Toronto and Montreal sales for 16 weeks before it put a one-cent bread-price increase into effect early in February. Since then, it was netting a profit of less than one per cent on sales, before taking into account corporate expenses, interest and income tax.

RADIO NETWORKS SEEK REMOVAL EDITORIAL BAN

WASHINGTON, March 2.—(AP)—The three major United States radio networks—NBC, ABC and CBS—yesterday pleaded with the federal communications commission to eliminate a rule forbidding them to editorialize on the air.

Niles Trammell, president of the National Association of Broadcasters, told an FCC hearing that the seven-year-old ban not only limits free speech, but violates the Communications Act by imposing "censorship on radio stations and stations."

The NBC "has no present plans for editorializing," even if the FCC lets down the bars, Trammell testified.

But Frank Stanton, president of Columbia Broadcasting System, said it does. He unfolded plans for regular "CBS Editorial Time" and "Letters to the Editor" programs.

Urges Single Assn. Of Civil Servants

OTTAWA, March 2.—(CP)—All-star Stewart (CF-Winnipeg North) told the Commons Monday he felt it would be better if civil servants if they had one large organization instead of dozens of small organizations to negotiate with the government. Some civil servants still were awaiting pay increases to help meet higher living costs. Others who had received increases would need a cost-of-living bonus if prices continued to rise.

Speaking in the Throne Speech debate, he urged that retired civil servants be granted pension increases.

Raps Treatment Of Yukon's Vets

OTTAWA, March 2.—(CP)—Hon. George Black (PC-Yukon) speaking in the Commons Throne Speech debate Monday protested that veterans of the Yukon had received "shabby" treatment at the hands of the Veterans Department, whose officials had ruled that the Veterans Land Act did not apply to the territory, although the wording of the act made it clear that it applied to all parts of Canada.

He had sought to move an amendment to make the act applicable to the Yukon but had withdrawn it when former Veterans Minister Mackenzie said it would be given most careful consideration. Nothing had been done. The veterans wanted no favors. They sought only what other veterans in Canada received.

He said also that post office employees in the territory were underpaid and that a new post office building was needed.

Hearst Papers Ask Draft MacArthur

NEW YORK, March 2.—(CP)—The Hearst newspapers Monday editorially urged that Gen. Douglas MacArthur, Allied supreme commander in the Far East, be drafted for the United States presidency.

Roads were the greatest necessity in the Yukon today, and he hoped the estimates this year would contain sums for the building of such roads.

Won't Raise Prices Of Veterans' Homes, Will Lower Some

OTTAWA, March 2.—(CP)—Veterans Minister Cheong told the Commons Monday a three-man committee that investigated a Veterans Land Act housing program known as Braefoot, near Victoria, had recommended slightly higher prices for 20 homes and lower prices for eight.

In the cases where higher prices were recommended, he did not propose to charge them. In the cases where lower prices were suggested, he would make them in line with the recommendation. The report would be presented to the veterans' committee on veterans affairs.

Join Conference Ont. Civil Servants Bound to Secrecy

PARIS, March 2.—(AP)—Italy officially agreed yesterday to a conference of a permanent international organization for European reconstruction.

Every Ontario government employee will be bound by oath not to divulge information to unauthorized persons under the Public Service Act which came into force Monday. Previously, all civil servants took the oath of allegiance but this is the first time they are held to secrecy.

KNOW YOUR ALBERTA ...

The Valley where Coal is Black Gold...

More than the treasure of Black Gold in the hills and mountains of the Crow's Nest Pass was needed to build the thriving towns that prosper there—optimism, foresight and courage of the pioneers were also factors. Shortly after the first railway train had steamed its way through the pass in 1898, settlement of the valley began in earnest. Coal properties were developed; the lumbering industry was established, and the founders of the hamlets of Coleman and Blairmore looked forward to the day when these centres would be among the most prosperous districts of the province.

Even the tragedy of the Frank Slide—occurring in 1903 when a section of Turtle Mountain collapsed, wiping out the town of Frank and taking more than 80 lives—failed to shake the faith of the settlers in the future of "The Crow." The years which followed justified that faith.

COLEMAN: In 1904 residents of other areas of Southern Alberta shook their heads at the optimism of a town with a population of only 500 installing a waterworks system and planning to have electric light and a telephone exchange a year later. The town that roused their wonder was Coleman—but that early progressive spirit still prevails there, and Coleman today—as in the past—is going ahead along sound, enterprising lines. Located 65 miles west of Macleod, and with a population of 1,800 within the town and the patronage of another 1,600 valley residents, two large collieries with an annual payroll of \$2,000,000, and Alberta's only coking plant located within its boundaries, Coleman is in an enviable financial position. It has no bonded debt and has built up a reserve fund of \$22,000 for civic improvements. The town has its own hospital, two public schools, and one high school, one of the best curling rinks in the province, and a number of active civic groups, clubs, societies and lodges, including a Little Theatre group which holds an annual festival under the auspices of the local Lions Club.

During the war, Coleman gave magnificent backing to the Victory Loan and was saving driver, and was also well represented with enlistments in all branches of the armed services.

Crow's Nest Lake, four miles west of Coleman, is a popular outing spot for residents of the mining town.

BLAIRMORE: From a tiny settlement named "The Springs," Blairmore has grown to a thriving coal mining centre, regarded as the "Hub of the Crow's Nest Pass." At a time when it was little more than a log cabin serving as the railway station, it was re-named as a tribute to Hon. A. G. Blair, then minister of railways, and in 1901 Blairmore was incorporated as a village, becoming recognized as a town only ten years later. Today, with a population of 2,000, its prosperity is assured by extensive coal mines producing 6,000 tons of coal daily, and by another pioneer industry—lumbering—which also contributes a large payroll.

Situated 60 miles west of Macleod, the town is one of well-kept streets and improved homes. Blairmore has several fine hotels, restaurants, granges, banks and stores, good public and high schools, municipally-owned utilities, a sports stadium and track, and a rink for winter sports activities. Of its homes, 80 per cent are owner-occupied, and the improvement of home grounds has added greatly to the attractiveness of the town.

Blairmore residents subscribed heavily to Victory Loan and war savings drives, and enlistments from the district were also very creditable.

Blairmore plans a \$20,000 street surfacing program for 1948, to supplement a \$275,000 municipal hospital, now under construction between Blairmore and Coleman, will serve both towns.

The district is renowned for the fishing and hunting opportunities it offers.

ILSLEY'S TEEPEE JUST TOO TOUGH TO INVAD

OTTAWA, March 2.—(CP)—Fifteen Indians with a grievance yesterday tried to invade the teepee of Justice Minister Ilesley, but failed to penetrate the flap. Claiming to represent some 90,000 of Canada's 130,000 Indians, a delegation of the North American Indian Nation ventured to Parliament Hill to see the justice minister—without appointment.

Jules Sioui, secretary of the Nation, said Mr. Ilesley would not meet them because he was busy with a treasury board meeting. They returned, later, said Mr. Sioui, and were told the minister would not have time to see them "today, tomorrow, or any other time."

"That's not exactly true," explained Mr. Ilesley. "These people demanded that I see them. I am not their minister and I told them so and declined to see them."

He said he would give them an appointment if asked to do so by Resources Minister Gen. The delegation said they would like to see lifted provincial government control of hunting, fishing and trapping.
